Dear OpenAI GPT Team,

I am writing to formally submit a counter-notification in response to the DMCA notice concerning my GPT model, specifically the "Graffiti" custom GPT, which was disabled due to an alleged copyright infringement claim.

I believe that the disabling of my GPT is a result of a mistake or misidentification. I assert that the content in question does not infringe upon any copyright, and I have the legal right to use and share this content.

Description of material removed or disabled: "Graffiti" custom GPT

Location of material before it was removed or disabled: https://chatgpt.com/g/g-XvlTo9th1-graffiti

I declare, under penalty of perjury, that I have a good faith belief that the material was mistakenly identified as infringing or was misidentified because [provide reasons supporting your assertion].

I consent to the jurisdiction of the Federal District Court for the judicial district in which OpenAI is located, and I will accept service of process from the person who provided the DMCA notification or their agent.

I hereby certify that the information provided in this counter-notification is accurate and that I am the copyright owner or authorized to act on behalf of the copyright owner.

Sincerely,

Alex Aldridge
